Brand Choice Inertia As One Aspect of the Motion of Brand Loyalty **(Marketing — Buyer Behavior; Statistics — Estimation; Philosophy of Modeling)**, ABEL P. JEULAND, 671.
Candidate to Job Allocation Problem with a Lexicographic Objective **(Networks/Graphs; Programming — Multiple Criteria)**, J. CRAMER AND M. A. POLLATSCHEK, 466.
Capacitated Bottleneck Facility Location Problem, A **(Bottleneck; Location Lagrangian Relaxation)**, P. M. DEARING AND F. C. NEWRUCK, 1093.
Case Study of Encoder Shift Schedu'ing under Uncertainty, A **(Financial Institutions — Banks; Manpower Scheduling; Programming — Stochastic, Chance Constrained)**, VINCENT A. MABERT, 623.
Channel Optimization in Complex Marketing Systems **(Marketing — Distribution; Programming — Geometric; Channels)**, MARCEL CORSTJENS AND PETER DOYLE, 1014.

Chinese Postman Problem for Mixed Networks, The **(Networks/Graphs; Transportation; Mathematics — Combinatorics)**, EDWARD MINIEKA, 643.

Closure Approximation for the Nonstationary *M/M/s* Queue, A **(Queues — Nonstationary; Queues — Transient Results; Queues — Numerical Methods)**, MICHAEL H. ROTHKOPF AND SAMUEL S. OREN, 522.

Cluster Analysis: An Application of Lagrangian Relaxation **(Cluster Analysis; Integer Programming Applications; Lagrangian Relaxation; Heuristics)**, JOHN M. MULVEY AND HARLAN P. CROWDER, 329.

Comparing Probability Measures on a Set with an Intransitive Preference Relation **(Stochastic Dominance; Intransitive Preferences)**, WARDWHITT, 505.

Comparison of a Multi-Pass Heuristic Decomposition Procedure with Other Resource-Constrained Project Scheduling Procedures **(Project Management — Resource Constraints; Industries — Construction; Facilities/Equipment Planning)**, CHARLES A. HOLLOWAY, ROSSER T. NELSON AND VICHIT SURAPHONGSCHAI, 862.

Competitive Bidding with Asymmetric Information Reanalyzed **(Games/Group Decisions — Bidding; Games/Group Decisions — Gambling)**, M. WEVERBERGH, 291.

Competitive Pricing Model, A **(Marketing — Pricing; Marketing — Buyer Behavior)**, HANI I. MESAK AND RICHARD C. CLELLAND, 1057.

Complexity of Facilities Layout Problems, On the **(Facilities/Equipment Planning — Layout; Networks/Graphs — Applications)**, T. E. BLOCK, 280.

Computation of Optimal Control Limits for a Queue with Batch Services, The **(Queues — Batch Service; Queues — Control; Transportation — Mass Transit)**, HOWARD J. WEISS, 320.

Computation of Particular Economic Equilibria **(Economics — Equilibria; Branch and Bound)**, JEROME BRACKEN AND JAMES E. FALK, 697.

Conceptual Framework for the Design of Organizational Control Mechanisms, A **(Organizational Design; Control; Organizational Goals)**, WILLIAM G. OUCHI, 833.

Constrained Entropy Model; Solvability and Sensitivity **(Entropy; Geometric Programming)**, JOHN J. DINKEL AND G. A. KOCHENBERGER, 555.

Controlled Experimental Design for Statistical Comparison of Integer Programming Algorithms **(Programming — Integer Algorithms; Statistics — Design of Experiments)**, BENJAMIN W. LIN AND RONALD L. RARDIN, 1258.

Cost of Decent Subsistence, The **(Industries — Agriculture/Food; Programming — Nonlinear, Applications; Utility/Preference — Applications)**, JOSEPH L. BALINTFY, 980.

Covering Relaxation for Positive 0-1 Polynomial Programs **(Programming— Integer Algorithms, Cutting Planes; Programming — Nonlinear, Algorithms, Cutting Planes)**, DANIEL GRANOT, FRIEDA GRANOT AND JERRY KALLBERG, 264.

Crew Planning at Flying Tiger: A Successful Application of Integer Programming **(Crew Scheduling; Integer Programming Applications)**, ROY E. MARSTEN, MICHAEL P. MULLER AND CHRISTINE L. KILLION, 1175.

Critical Note on a Result by Lemoine, A **(Networks of Queues)**, I. MITRANI, 1026.

Cut Search Algorithms with Arc Capacities and Lower Bounds, The **(Project Management; Networks/Graphs — Flow Algorithms)**, STEVE PHILLIPS, JR. AND MOHAMED I. DESSOUKY, 396.

Decentralization of the Central Budgeting Authority **(Planning — Corporate; Organizational Studies — Design; Finance — Capital Budgeting)**, ED M. SHARON, 31.

Decentralized Capital Budgeting Problem under Uncertainty, On the **(Finance — Capital Budgeting; Finance — Management)**, BØRGE OBEL AND JAMES VANDER WEIDE, 873.

Delegation Process for Combining Individual Utility Functions, A **(Games/Group Decisions — Teams; Games/Group Decisions — Voting/Committees)**, SAMUEL E. BODILY, 1035.

Designing Scientific Journals, Comment on: Communication to the Editor, PHILIPPE CATTIN, 295.

Deterministic Demand Multi-Product Single-Machine Lot Scheduling Problem, On the **(Inventory/Production; Inventory/Production — Packaging; Inventory/Production — Deterministic Models)**, STEPHEN C. GRAVES, 276.

Does Lag Structure Really Matter in Optimizing Advertising Expenditures? **(Advertising; Generalized Lag Structure; Optimization)**, ALAIN V. BULTEZ AND PHILIPPE A. NAERT, 454.

Effect of Cognitive Style and Report Format on Task Performance: The MIS Design Consequences, The **(Information Systems — Management; Organizational Studies — Information)**, EDWARD J. LUSK AND MICHAEL KERSNICK, 787.

Effectiveness of Common Random Numbers, On the **(Simulation; Random Numbers)**, R. D. WRIGHT AND T. E. RAMSAY, JR., 649.

Effects of Alternate Information Structures in a Decomposed Organization, A Laboratory Experiment **(Organizational Design; Goals Coordination; Resource Allocation)**, JEFFREY H. MOORE, 485.

Effects of Centralization on Expected Costs in a Multi-Location Newsboy Problem **(Facilities/Equipment Planning; Inventory/Production — Operating Characteristics; Inventory/Production — Stochastic Models)**, GARY D. EPPEN, 498.

Efficient Algorithm to Determine Stochastic Dominance Admissible Sets, An **(Stochastic Dominance; Algorithm)**, VIJAY S. BAWA, ERIC B. LINDENBERG AND LAWRENCE C. RAFSKY, 609.

Erratum to "A Minimax Ordering Policy for the Infinite Stage Dynamic Inventory Problem" **(Inventory/Production — Stochastic Models; Dynamic Programming)**, R. JAGANNATHAN, 294.

Estimating Service Territory Size **(Logistics — Service Territory Size; Queues — Approximations)**, STEPHEN A. SMITH, 301.

Evaluating Methodologies: A Procedure and Application to Nuclear Power Plant Siting Methodologies **(Decision Analysis — Criteria; Philosophy of Modeling; Utility/Preferences — Applications)**, COLEEN K. FORD, RALPH L. KEENEY AND CRAIG W. KIRKWOOD, 1.

Evaluating Urban Growth Policies with a Systems Simulation **(Planning — Urban; Government; Simulation — Systems Dynamics)**, DONALD E. SEXTON, 43.

Evaluation of a Heuristic for Scheduling Independent Jobs on Parallel Identical Processors **(Production/Scheduling; Statistics — Nonparametric; Programming — Integer Algorithms, Heuristic)**, ALI DOGRAMACI AND JULIUS SURKIS, 1208.

Exact Hierarchical Algorithm for Determining Aggregate Statistics from Individual Choice Data, An **(Marketing; Marketing — Buyer Behavior; Decision Analysis — Sequential)**, DENNIS H. GENSCH AND JOSEPH A. SVESTKA, 939.

Example of a Multi-Object Auction Game, An **(Bidding)**, RICHARD ENGELBRECHT-WIGGANS AND ROBERT J. WEBER, 1272.

Extended Pattern Search with Transformations for the Three-Parameter Weibull MLE Problem **(Reliability — Parameter Estimation)**, STELIOS H. ZANAKIS, 1149.

Extension of Gitlow's Methodology for Designing Abortion Clinics, An: Communication to the Editor, J. P. C. KLEIJNEN, 408.

Fire Loss Reduction: Fire Detectors vs. Fire Stations **(Government — Services, Fire; Policy Analysis;**

Facilities/Equipment Planning), JONATHAN HALPERN, 1082.

Further Analysis of the EEOCC 'Four-Fifths' Rule **(Government — Regulations; Statistics; Labor),** ANTHONY E. BOARDMAN, 770.

Generalization of the Nerlove-Arrow Model to Multi-Firms Advertising under Uncertainty, A **(Marketing; Economics; Marketing — Advertising/Promotion),** , CHARLES S. TAPIERO, 907.

Generating Pallet Loading Patterns: A Special Case of the Two-Dimensional Cutting Stock Problem **(Dynamic Programming — Applications; Production/Scheduling — Cutting Stock; Production/Scheduling — Material Handling),** HAROLD J. STEUDEL, 997.

Group Preference Aggregation Rules Based On Strength of Preference **(Utility/Preference — Theory),** JAMES S. DYER AND RAKESH K. SARIN, 822.

Hazardous-Inspection Model, A **(Reliability; Inspection; Failure Models),** DAVID A. BUTLER, 79.

Heuristic Lot Size Reorder Point Model for Decaying Inventories, A **(Inventory/Exponential Decay; Heuristic/Simulation),** STEVEN NAHMIAS AND SHAN SHAN WANG, 90.

Incentives in a Divisionalized Firm **(Organizational Studies — Design; Organizational Studies — Goal; Organizational Studies — Information; Organizational Studies — Motivation),** THEODORE GROVES AND MARTIN LOEB, 221.

Indirect Method for the Generalized *k*-Median Problem Applied to Lock-Box Location, an **(Location; *k*-Median; Lock-Box),** LAZAROS P. MAVRIDES, 990.

Individual Differences and MIS Success: A Review of the Empirical Literature **(Management Information Systems; Human Behavior; Performance),** ROBERT W. ZMUD, 966.

Infinite Horizon Investment — Consumption Policies **(Finance — Investment; Utility Theory; Dynamic Programming),** ROBERT A. ABRAMS AND UDAY S. KARMARKAR, 1005.

Integer Programming Post-Optimal Analysis with Cutting Planes **(Programming — Integer Algorithms; Cutting Planes),** DIETER KLEIN AND SØREN HOLM, 64.

Interaction Effect of Preference and Availability on Brand Switching and Market Share, The **(Marketing — Buyer Behavior; Statistics — Estimation; Philosophy of Modeling),** ABEL P. JEULAND, 953.

Inventory Model with Full Load Ordering, An **(Inventory/Production; Inventory/Production — Limit Theorems),** KATARZYNA IWANIEC, 374.

ISMS: Computer-Aided Analysis for Design of Decision-Support Systems **(System Design; Man-Machine Systems; Structural Modeling),** JAMES V. HANSEN, LYNN C. MCKELL AND LESTER E. HEITGER, 1069.

Judgment Based Marketing Decision Models: An Experimental Investigation of the Decision Calculus Approach **(Marketing — Advertising/Promotion; Decision Analysis; Organizational Studies),** DIPANKAR CHAKRAVARTI, ANDREW MITCHELL AND RICHARD STAELIN, 251.

Learning Curves, Production Rate, and Program Costs **(Production/Scheduling; Production/Scheduling — Work Studies and Learning),** NORMAN KEITH WOMER, 312.

Less Nervous MRP Systems: A Dynamic Economic Lot-Sizing Approach **(Material Requirements Planning; Material Requirements Planning — Lot Sizing),** ROBERT G. CARLSON, JAMES V. JUCKER AND DEAN H. KROPP, 754.

Linear Programming and Markov Decision Chains **(Dynamic Programming — Markov, Finite Stage; Programming — Infinite Horizon),** A. HORDIJK AND L. C. M. KALLENBERG, 352.

Locating Rural Social Service Centers in India **(Government; Facilities Planning — Location; Dynamic and Integer Programming — Applications),** NITIN R. PATEL, 22.

"Location of Bank Accounts to Optimize Float: An Analytic Study of Exact and Approximate Algorithms," On **(Programming — Integer Algorithms, Heuristic; Facilities/Equipment Planning — Location),** GERARD CORNUEJOLS, MARSHALL L. FISHER AND GEORGE L. NEMHAUSER, 808.

Management System: Its Functions and Processes, The **(Organizational Design; Managerial Process; Managerial Function),** J. BARTON CUNNINGHAM, 657.

Managing Sickle Cell Anemia in Zaire **(Population; Health Care — Epidemiology),** JEAN LEMAIRE, 922.

Markovian Queue with *N*-Servers Subject to Breakdowns and Repairs, A **(Queues — Multi-Channel; Algorithmic Methods; Server Breakdowns and Repairs),** MARCEL F. NEUTS AND DAVID M. LUCANTONI, 849.

Mathematical Models of Road Travel Distances **(Transportation — Road; Statistics — Estimation; Planning — Urban),** ROBERT F. LOVE AND JAMES G. MORRIS, 130.

Maximal Covering Location Problem and the Generalized Assignment Problem, On the **(Facility Location; Assignment Problem),** T. D. KLASTORIN, 107.

Merits of an "Approximation" to the Busy Period of the *GI/G/*1 Queue, On the **(Queues — Busy Period Analysis; Probability — Renewal Processes),** V. RAMASWAMI, 285.

Metasystem Approach to Organizational Decision-Making, A **(Planning; Organizational Studies),** WILLIAM J. M. KICKERT AND JOHN P. VAN GIGCH, 1217.

Multiattribute Utility Functions: Decompositions Using Interpolation **(Utility/Preference — Multi-Attribute; Utility/Preference — Estimation),** DAVID E. BELL, 744.

Multiperiod Consumption and Investment Behavior with Convex Transactions Costs **(Finance — Investment Criteria; Decision Analysis — Sequential; Utility/Preference — Theory),** GEORGE M. CONSTANTINIDES, 1127.

Multiple Objective Approach to Space Planning for Academic Facilities, A **(Education Systems — Planning; Facilities/Equipment Planning — Layout; Programming — Multiple Criteria),** LARRY RITZMAN, JOHN BRADFORD AND ROBERT JACOBS, 895.

Multi-Stage Production Planning **(Inventory/Production — Deterministic Models; Inventory/Production — Production Smoothing; Production/Scheduling),** HENRY GABBAY, 1138.

MUST — A Multiple Solutions Technique for Balancing Single Model Assembley Lines **(Production/Scheduling — Line Balancing; Production/Scheduling; Networks/Graphs),** E. M. DAR-EL AND Y. RUBINOVITCH, 1105.

Network Models for Estimating Brand-Specific Effects in Multi-Attribute Marketing Models **(Marketing — Buyer Behavior; Marketing — New Products; Health Care),** V. SRINIVASAN, 11.

New Product Problem: An Approach for Investing Product Failures, The **(New Products; Discrete Multivariate Data; Discriminant Analysis),** WILLIAM R. DILLON, ROGER CALANTONE AND PARKER WORTHING, 1184.

Optimal Algorithm for Sales Representative Time Management, An **(Marketing — Sales Force; Programming — Integer Algorithms; Programming — Integer, Applications),** ANDRIS A. ZOLTNERS, PRABHAKANT SINHA AND PHILIP S. C. CHONG, 1197.

Optimal Allocation of Work in Symmetrically Unbalanced Production Line Systems with Variable Operation Times, On the **(Inventory/Production — Stochastic Systems; Production/Scheduling — Line Balancing; Queues),** FREDERICK S. HILLIER AND RONALD W. BOLING, 721.

Optimal Construction of Experimental Clusters (**Marketing — Measurement; Statistics — Cluster Analysis; Marketing — Advertising/Promotion**), RICHARD A. MURPHY AND RONALD L. TATHAM, 182.

Optimal Inventory Ordering Policy with Tax Payments under FIFO and LIFO Accounting Systems (**Inventory/Production — Stochastic Models; Accounting — Inventory Valuation, Taxes**), MORRIS A. COHEN AND DOV PEKELMAN, 729.

Optimal Pilfering Policies for Dynamic Continuous Thieves (**Marketing; Government — Services, Police; Industries — Security Services**), SURESH P. SETHI, 535.

Optimal Scheduling of Jobs on a Transmission Network (**Programming — Integer, Applications; Facilities/Equipment Planning — Maintenance/Replacement; Production/Scheduling**), G. A. JONES AND J. G. WILSON, 98. AND J. G. WILSON, 98.

Optimizing Standby Reliability Systems Having Nondecreasing Failure Rates (**Standby Redundancy; Series Systems; Branch and Bound Algorithm**), DENNIS W. MCLEAVEY AND JANET A. MCLEAVEY, 577.

Optimum Span of Control in a Pure Hierarchy, The (**Organizational Design; Decision Making; Span of Control**), MICHAEL KEREN AND DAVID LEVHARI, 1162.

Participation Rates in Government Transfer Programs: Application to Housing Allowances (**Government; Forecasting; Group Behavior**), C. PETER RYDELL, JOHN E. MULFORD AND LAWRENCE W. KOZIMOR, 444.

Planning Freedom: Some Thoughts about the Ideas of Van Gigch, On (**Planning — National; Social Choice; Organization Design**), MARIA NOWAKOWSHA, 274.

Planning Horizon Procedures for Machine Replacement Models (**Inventory/Production — Planning Horizons; Inventory/Production — Policies, Replacement**), SURESH SETHI AND SURESH CHAND, 140.

Post-Infeasibility Analysis in Linear Programming (**Linear Programming**), GARY M. ROODMAN, 916.

Power Approximation for Computing (*s*, *S*) Inventory Policies, The (**Inventory/Production — Approximations**), RICHARD EHRHARDT, 777.

Probability Models in Medicine and Biology: Avenues for Their Validation for Humans in Real Life (**Health Care; Probability**), JERZY NEYMAN, 931.

Reliability and Inventory in the Production-Storage System (**Inventory/Production — Operating Characterisitics; Reliability**), ROBERT R. MEYER, MICHAEL H. ROTHKOPF AND STEPHEN A. SMITH, 799.

Results on Sojourn Times in Acyclic Jackson Networks, Some (**Networks of Queues**), B. SIMON AND R. FOLEY, 1027.

Reversibility Property of Production Lines, The (**Inventory/Production; Operating Characteristics; Stochastic Models; Job Shop — Stochastic**), EGINHARD J. MUTH, 152.

Revising Earnings per Share Forecasts: An Empirical Test (**Forecasting — Applications; Finance — Securities**), CHARLES H. BRANDON AND JEFFREY E. JARRETT, 211.

Server Transfer Delays in a Dual Resource Constrained Paralled Queueing System (**Queues; Queues — Simulation; Labor**), RICHARD E. GUNTHER, 1245.

Simple Edge Elimination Criterion in a Search for the Center of a Graph, A (**Center; Graph; Location**), JONANTHAN HALPERN, 105.

Simple Method of Determining Order Quantities in Joint Replenishments under Deterministic Demand, "On" A (**Inventory/Production — Packaging; Inventory/Production — Joint Ordering**), S. K. GOYAL AND A. S. BELTON, 604.

Simulating Housing Market Processes at the Micro Level (**Market Simulations; Housing; Real Estate; Urban Economics; Buyer Behavior**), IGAL AYAL AND DONALD J. HEMPEL, 565.

Simulation of Multiple Selection Using Nominal Group Procedures, A (**Organizational Studies — Personnel Selection; Group Decision Making**), RAYMOND E. WILLIS, 171.

Simulation Study of Predictable Due-Dates, A (**Simulation — Applications; Production/Scheduling — Job Shop, Stochastic; Inventory/Production — Simulation**), JAMES K. WEEKS, 363.

Single Server Queue with Constant Service Time And Restricted Accessibility, A (**Queues — Balking and Reneging**), PER HOKSTAD, 205.

Strategic Role of Information On the Demand Function in an Oligopolistic Market, The (**Marketing; Games/Group Decisions; Information Systems**), JEAN-PIERRE PONSSARD, 243.

Switching Constant, The (**Marketing; Marketing — Buyer Behavior; Marketing — Competition**), A. S. C. EHRENBERG AND G. J. GOODHARDT, 703.

Theory of Academic Interdisciplinary Research Performance: A Contingency and Path Analysis Approach, A (**Research and Development; Organizational Studies — Behavior; Education Systems**), PHILIP H. BIRNBAUM, 231.

Total Sojourn Time in Networks of Queues, On (**Networks of Queues**), AUSTIN J. LEMOINE, 1034.

Turnpike Results for Single Location Capacity Expansion (**Facilities/Equipment Planning — Capacity Expansion; Dynamic Programming — Applications; Industries — Communications**), ROBERT L. SMITH, 474.

Two-Segment Programming (**Programming — Nonlinear Algorithms; Programming — Convex, Separable**), R. R. MEYER, 385.

Unified Approach to Urban Modeling, A: Communication to the Editor, J. F. BROTCHIE AND P. F. LESSE, 112.

Use of Optimization Models in Public-Sector Planning, The (**Government; Optimization Models; Planning; Policy Analysis**), E. DOWNEY BRILL, JR., 413.

Using Linear Programming to Derive Planning Horizons for a Production Smoothing Problem (**Inventory/Production — Planning Horizons**), LOUIS MILLER, 1232.

Using Optimal Policy Surfaces to Analyze Aggregate Inventory Tradeoffs (**Inventory/Production — Parameter Analysis; Inventory/Production — Stochastic Models; Military — Logistics**), EVERETTE S. GARDNER, JR. AND DAVID G. DANNENBRING, 709.

Weighted Assignment Models and Their Application (**Networks/Graphs — Applications; Programming — Integer, Applications; Programming — Integer Algorithm**), G. TERRY ROSS AND ANDRIS A. ZOLTNERS, 683.

MANAGEMENT SCIENCE
Vol. 25, No. 12, December 1979
Printed in U.S.A.

INDEX TO NORTH-HOLLAND/TIMES STUDIES IN THE MANAGEMENT SCIENCES

ROBERT E. MACHOL, Editor in Chief.

Volume 9: *Applied Optimal Control,* ALAIN BENSOUSSAN, PAUL R. KLEINDORFER and CHARLES S. TAPIERO, Eds., 1978.
Volume 10: *Energy Policy,* JULIUS S. ARONFSKY, AMBAR G. RAO and MELVIN F. SHAKUN, Eds., 1978.
Volume 11b: *Portfolio Theory, 25 Years After,* EDWIN J. ELTON and MARTIN J. GRUBER, Eds., 1979.
Volume 12: *Forecasting,* SPYROS MAKRIDAKIS and STEVEN C. WHEELWRIGHT, Eds., 1979.
Volume 13: *The Implementation of Management Science*, R. DOKTOR, R. L. SCHULTZ and D. P. SLEVIN, Eds., 1979.
